+91 9871371357 ◇ Ghaziabad, India 201012

## OBJECTIVE

---

Technology-focused software developer with strong foundations in Computational Science, AI, and scalable system design. Experienced in building production-ready full-stack and intelligent applications with measurable impact. Passionate about developing secure, efficient, and user-centric digital solutions while continuously advancing in AI, cloud-native technologies, and distributed systems. Seeking to contribute through hands-on engineering, problem-solving, and innovative thinking.

## EDUCATION

---

**B.Tech in Computational Science**, SRM Institute of Science and Technology, Chennai Aug 2027  
Current CGPA (till 5th semester): 9.2/10

**High School Certificate**, DPS Indirapuram, Ghaziabad Jul 2023

## EXPERIENCE

---

**Software Engineer Intern, Basys.ai** Jun 2025 - Aug 2025  
- Optimized agentic AI pipeline (reduced runtime by 30 percent); improved backend (LangChain, Flask, Elasticsearch, CrewAI).  
- Delivered production-ready, documented code adopted across 4 or more modules.

**AI/ML Intern, Sharpys** May 2025 - Jul 2025  
- Built agent-based e-commerce chatbot; analyzed over 1,000 interactions for purchase insights.  
- Created reusable ML pipelines, reducing deployment time by 35 percent.

## SKILLS

---

**Programming:** Python, C, C++, Java, JavaScript, SQL  
**Frameworks and Development:** ReactJS, Node.js, Express.js, Flask, Flutter  
**AI/ML and Data:** Machine Learning, NLP, LangChain, CrewAI, API Integration  
**Databases & Tools:** MongoDB, MySQL, Firebase, Git, Docker, Kubernetes, Playwright, AWS Fundamentals  
**Soft Skills:** Leadership, Collaboration, Public Speaking, Problem Solving

## PROJECTS

---

**Academia X Console - Academic Management App** [\[Live\]](#)  
- Developed academic management app (attendance, marks, schedules, chat, reminders).  
- Secure authentication, offline caching, real-time Firebase sync; over 1,000 installs, approx. 3,000 daily active users.

**Student AI Tutor Suite** [\[Live\]](#)  
- Visual doubt-solving tutor from uploaded material with AI explanations.  
- Voice-enabled teaching agent and automated podcast generation.

**Insights - Peer Growth Analytics Platform** [\[Live\]](#) [\[Code\]](#)  
- LinkedIn scraping engine for certification and hackathon leaderboards.  
- AI-driven analytics for personalized growth insights.

## ACHIEVEMENTS AND LEADERSHIP

---

**Achievements**  
- 1st Place - Innofusion Hackathon.  
- 2nd Place - Semicolon Coding Competition.  
- 3rd Place - ATOS Hackathon, Sharpys Hackathon, Bug Busters Coding Competition.

**Technical Lead - Kzilla Club, SRM**  
- Led technical initiatives, workshops, and collaborative development activities.
